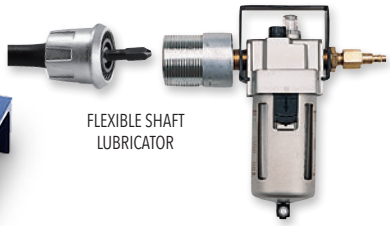
DIY SHAFT MAINTENANCE –
CUTTING, CRIMPING, COUPLING AND MORE

1. CUT SHAFT

2. FORM SHAFT

3. CRIMP ON REPLACEMENT COUPLING



FLEXIBLE SHAFT LUBRICATOR

FLEXIBLE SHAFT CUTTING AND CRIMPING PRESS:
The Flexible Shaft Cutting and Crimping Press is specifically designed for use with Goodway GTC-701, GTC-702 and GTC-703 Flexible Shafts. This unique tool will allow the user to quickly cut and repair flexible shafts in the field, without the use of any other tools.

PCC-BASE: Flexible Shaft Cutting and Crimping Press with cutting dies ..... **Call for Price**

Note: Crimping dies not included. Order crimping dies below.

DIE-SET-701: Dies for GTC-701 Flexible Shafts .... **Call for Price**

DIE-SET-702: Dies for GTC-702 Flexible Shafts .... **Call for Price**

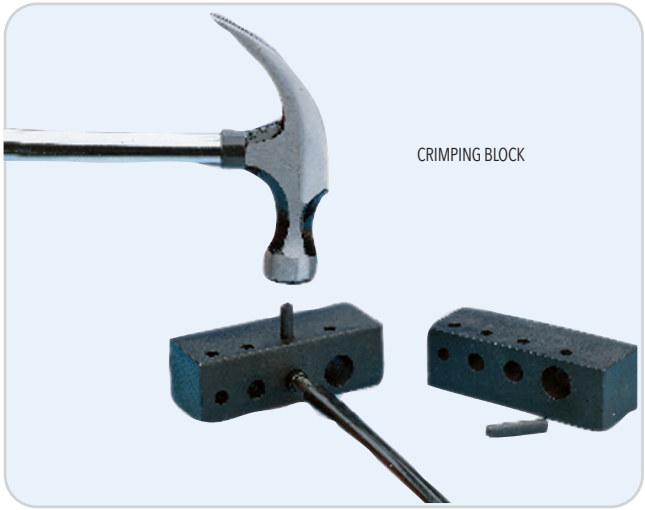
DIE-SET-703: Dies for GTC-703 Flexible Shafts .... **Call for Price**

DIE-SET-CUT: Replacement cutting die..... **Call for Price**

FLEXIBLE SHAFT LUBRICATOR:
The Goodway Flexible Shaft Lubricator allows for fast, easy protection of flexible shafts in between uses. Simply fill the lubricator with water-soluble lubricant, connect the flexible shaft and attach a compressed air line (maximum 150 PSI – quick connect fits Goodway air line #ASH-B50-A – see goodway.com). The flow of air and lubricant displaces water and coats the shaft core to protect it from harmful rust and corrosion. Lubricant flushes out with water when shaft is used again.

GSL-705: Flexible Shaft Lubricator with quick connect ..... **Call for Price**

GSL-LU1: Lubricant for flexible shaft lubricator, 16 oz ..... **Call for Price**



CRIMPING BLOCK

CRIMPING BLOCK:
Goodway's Crimping Block provides the user with quick, convenient methods for performing repairs of flexible shafts in the field. Used properly, each will permanently attach repair couplings, extending the life of the flexible shaft, while reducing downtime when a repair is needed.

GTC-CT5: Crimping Block with punch ..... **Call for Price**

GTC-CTP: Replacement Punch ..... **Call for Price**
