DRAIN PAN BIOCIDE TABLETS: Got condensate drain pans? Then you've got trouble! HVAC condensate drain pans are breeding grounds for slime, sludge and toxic bacteria like Legionella Pneumophila (Legionnaire's Disease). Not only can this buildup of debris cause clogging of the drain lines resulting in water overflow and damage to the building, but the bacteria can become airborne, resulting in "sick building syndrome" and health problems for the building's occupants. How can you fight this harmful buildup of debris in your drain pans? Use PanCare from Goodway on a regular basis! PanCare is an EPA-registered biocide. Formulated to help prevent the buildup of slime and bacteria in HVAC condensate drain pans. It kills 99% of Legionella Pneumophila and Salmonella Typhi Bacteria and contains a rust inhibitor. Each tablet is weighted to prevent floating and will work for up to 3 months, on a 3 to 5-ton or a 45-ton system (depending on tablet) providing a constant release of biocide into the water.

PANCARE-24: PanCare Biocide Tablets for a 3 to 5-ton system, one case (24 tablets)\$140.00

PANCARE-45-6: PanCare Biocide Tablets for a 45-ton system, one case (6 tablets)\$160.00
