

COIL CLEANING – AND PROTECTION – IN ONE MACHINE

INCLUDES
WET/DRY VACUUM

CC-200 – Portable. Powerful. Game-changing.

The latest edition of the CoilPro® line, the CC-200, is loaded with features requested by our users. This two-in-one coil cleaning solution combines the best technologies for cleaning coils: a powerful vacuum for easy cleanup and a unique cleaner/bio growth inhibitor in one easy-to-use machine. It's simply the most comprehensive portable coil cleaning system! The CC-200 features an innovative, safe-on-coils, pressurized water system that delivers 200 PSI of cleaning power at 0.9 GPM to remove dirt, dust and debris from a variety of coils. It includes a convenient, 8 gallon built-in water tank for portable use, or you can attach it to a water source for continuous cleaning. Plus, it also includes a powerful wet/dry vacuum that can be used to dry clean coils and remove water residue after cleaning with custom accessories. But we've saved the best for last, CoilShine-T. These powerful tablet-based coil cleaners deliver all the powerful cleaning and protection capabilities of our CoilShine liquid cleaner at a fraction of the size and weight. No more lugging around gallons of heavy and bulky coil cleaner.

U.S. PATENT NO. 9,505,037

FEATURES

- Complete, industrial coil cleaning system
- Powerful, yet safe 200 PSI, 0.9 GPM coil cleaning pressure with 8 gallon tank or continuous water supply
- 100 CFM wet/dry integrated vacuum system with 7 gallon capacity
