

# BETTER PERFORMANCE ON INTERNALLY ENHANCED TUBES

PATENT NOS.  
7055203, D489495

## RAM-6 – Clean in Forward and Reverse

The RAM-6 is equipped with a reversible motor for cleaning internally enhanced tubes. The two-direction foot switch permits forward rotation for entering the tubes and reverse rotation for exiting. While the design of the brush and the spiral in the tube causes the brush to be self-propelled through the tube, the variable speed of the RAM-6 allows you to set the brush rotation speed to match the natural feed rate of the spiral in your tube, preventing slip and allowing the brush to thoroughly clean both, the lands and the grooves of the tube.

### FEATURES

- Stainless steel construction
- Speed control to set shaft rotation at optimum speed for each application
- Quick connect threadless shaft manifold
- Interchangeable cleaning tools
- Integrated heavy-duty contractor dolly and large pneumatic tires
- Integral 500 PSI pump provides simultaneous cleaning solution injection; and increased water pressure and flow over standard units
- Foot switch activation
- Reversible shaft rotation
- Liquid chemical injection

**RAM-6-60:** Tube cleaner, including contractor dolly, tool storage box, two-direction foot switch and a 1 gallon bottle of tube cleaning solution .....  
**\$3,995.00**

SPECIFICATIONS	RAM-6	
	Motor Power	1.5 HP
	Input Power	Standard: 15 amps, 115V, 60 Hz AC Optional: 15 amps, 115V, 50 Hz; 7.5 amps, 230V, 60 Hz; or 7.5 amps, 230V, 50 Hz
	Power Supply Cord	21', 14-3 GFCI
	Flexible Shaft Speed	Adjustable, 200-800 rpm
	Water Requirements	Minimum 25 PSI at 2.2 GPM
	Dimensions	46" high x 24" wide x 18" deep
	Weight	103 lbs net dry

INNOVATIVE MAINTENANCE SOLUTIONS

# FOR A MORE THOROUGH CLEANING

## Internal Specialist

Lands and grooves make internally enhanced tubes more energy efficient, but also causes tubes to become clogged with performance zapping deposits. Luckily, the advanced features of the RAM-6 Tube cleaner, combined with the Patriot® Dual Diameter Brush, enable you to thoroughly clean even the most fouled internally enhanced tubes. The cleaning brush matches the internal spiral of the tube causing it to self-propel through its lands and grooves, scooping out pollutants along the way. The shaft casing feeds high-pressure water to the tube to flush out loosened deposits. It's simple to use and easy to master.

## TUBE CLEANING SOLUTION:

The R6-Cleaner is specifically formulated for use with the RAM-6 to provide a more thorough cleaning of ferrous and non-ferrous tubes. It is low foaming and has a neutral pH for non-corrosive cleaning and safe handling. The solution is biodegradable and phosphate free, allowing for easy waste disposal. It is free rinsing and will not leave interfering residues.

**R6-CLEANER:** Tube Cleaning Solution, 1 gallon bottle ..... **\$60.00**

**R6-CLEANER-55:** Tube Cleaning Solution, 55 gallon drum..... **\$2,995.00**

## PATRIOT® DUAL DIAMETER NYLON BRUSHES:

"Patriot" Dual Diameter Nylon Brushes are recommended for removing soft deposits (mud, algae, etc.) in straight, ferrous and nonferrous internally enhanced tubes. The large diameter end cleans into the grooves while the small diameter end cleans the lands of a tube's rifling.

**ENN-062Q:** The "Patriot" Dual Diameter Nylon Brush for tubes 5/8" I.D. .... **\$6.75 ea.**

## RAM-6 SERVICE KIT:

Get your RAM-6 working like new with the RAM6-SVC-KIT. This tune-up package includes illustrated instructions as well as all the replacement wear items you will need to get your unit running at peak performance.

**RAM6-SVC-KIT:** RAM-6 Service Kit including, 805 O-ring, 6005 Seal, 825 Bearing, 826 Snap Ring, 6020 Snap Ring, 833 Lower Bearing, 6003 Shaft/Driver, 803 Screen Washer, 6006 Back-up Washer, 6012 V Belt and HWST-1037-P Cover Screws (package of six) ..... **\$147.50**
