

FIRE AWAY FOR EFFICIENCY

JetLaunch®-XL – For 2" - 4 1/2" I.D.

Many of our products come from customer feedback and larger projectiles and launchers have been a common request. We now have an answer for inside diameter's 2" - 4 1/2", with our brand new JetLaunch-XL. The single nozzle design allows for simple operation by placing the projectile inside the end of the tube, pipe or hose, then inserting the tapered nozzle.

# FAST EFFECTIVE, TO ISO 13/10 LEVELS, EXPERIENCE THE POWER OF PNEUMATIC

"Our results were excellent. One shot was usually all it took to clean a hose, with a few more required for severely fouled situations. Because of this success, we now have a JetLaunch® in each branch shop and on every service truck."

– J. Palmer Clarkson

## Standard Projectiles

Goodway's Standard Projectiles are specially formulated for use with any pneumatic gun. As a projectile is shot, it is compressed, loosening and propelling dirt and deposits through the hose, tube or pipe. Projectiles are oversized to ensure proper compression for maximum cleaning action.

**Note:** Abrasive projectiles and custom sizes available.

## Coupling Projectiles:

Goodway's Coupling Projectiles are made from a soft, dense packed foam, designed to allow the projectile to be shot through a hose, tube or pipe with couplings.

**Note:** Abrasive projectiles and custom sizes available.
