

STEP UP YOUR SURFACE SANITATION PERFORMANCE

BIOSPRAY® D2 SURFACE SANITIZER & DISINFECTANT

BIOSPRAY D2

BioSpray Sanitizing Systems provide plant owners and operators an innovative way to adhere to pet food safety. BioSpray D2 sanitizer and disinfectant is ready-to-use, no-rinse, highly evaporative, non-corrosive and fast acting. Ideal for water sensitive equipment, like conveyor belts, food packaging systems and more. BioSpray D2 is a rapid kill surface sanitizer/disinfectant spray approved for "Food Contact Surfaces without a Rinse" and is a combination of isopropyl alcohol and a powerful quaternary ammonium compound which kills 99.999% of bacteria on food contact surfaces in 60 seconds and 99.9% of bacteria on non-food contact surfaces in 10 seconds. This unique product is the perfect solution increasing sanitation performance while reducing chemical usage and application time for any pet food plant. BioSpray D2 is an alcohol based sanitizer that introduces no moisture and keeps environments 100% dry after application. This removal of moisture is essential for food safety and preventing salmonella. This unique product is powerful enough to kill pathogens yet safe enough to use on food-contact surfaces without a rinse.

SANI-D2-12: Twelve 1L Bottles of BioSpray D2 Formula.....**\$170.00**
