

# STOP THE DAMAGING EFFECTS OF SCALE DEPOSITS

## SCALEBREAK®, SCALEBREAK®-SS & SCALEBREAK®-MP

Goodway's ScaleBreak family of descalers safely dissolves mineral deposits faster than other liquid descalers on the market. These biodegradable cleaners will quickly dissolve calcium, lime, rust, and other types of deposits from water passages in water-cooled or heated equipment. While ScaleBreak is safe for use on steel, iron, brass, copper, plastic and rubber, ScaleBreak-SS or ScaleBreak-MP can be used in stainless steel applications and for industrial water cooled/heated equipment. When used as directed, they will help to improve the operating efficiency and extend the life of your equipment. Fortified with powerful low foaming, wetting and penetrating agents, and superior corrosion inhibitors, they are ideal for use on boilers, chillers, condensers, heat exchangers, oil coolers, cooling towers, furnaces, and water piping systems.
