

YOUR SMALL MACHINE SHOP JUST GOT BIGGER

DV-CNC – The Perfect Fit

If you're looking for a simple way to make substantial gains in the efficiency of your machine shop, look no further. The CNC Series ChipMasters return filtered coolant back to your machine tool or into a collection drum through an integrated transfer pump.

A second step through a .05" basket or an optional polypropylene filter provides additional filtration down to 300 microns. A tangential intake port allows you to recover not just chips and coolant, but clumps as well.

DV-CNC: Chip/Coolant Recovery Vacuum, including filter, tangential intake port, 11 gallon metal chip basket, 27 gallon bonderized steel drum, handles, casters, pump out system and hose

Call for Customization Options and Price

Note: Vacuum does not include accessories. Order individual accessories shown on pages 155-160.

REVERSE
FLOW
SYSTEM

FEATURES

- Rugged construction
- Coolant level indicator
- Liquid shut-off
- Reverse flow pump out system
- Tangential intake port
- Metal chip basket
- Reusable filter
- 1 1/2" or 2" hoses
- Optional 6 Micron coolant filter available

ACCESSORIES:

VAC-KIT-5: 2" Bulk Pickup Vacuum Accessory Kit: 15' Smooth Bore PVC Hose, 56" Double Bend Wand, 18" Bulk Pickup Nozzle and 13" Aluminum Gulper Tool

DA-CNC-PF: Polypropylene Filter Assembly for DV-CNC, DV-CM, and DV-CM4 Vacuum

DA-CV.0042.0000: Intake Adapter
