- Tilt-tank
- Metal chip basket
- Cartridge safety filter
- 2" hoses
- 3" dump valve
- 105 gallon liquid collection tank
- Coolant level indicator

DV-CM7.5-TILT – Maximum Efficiency

From collection to separation to discharge, the Super ChipMaster® Tilt is a complete, soup-to-nuts system. Not only is it a powerful machine that devours chips and coolant, it is also a precision instrument that can filter shavings down to 300 microns. Plus, it finishes the task at hand.

An integrated transfer pump returns filtered coolant back to your machine tool while an internal basket tilts to dump out the chips. Simply put, the Super Chipmaster saves time, and valuable coolant, with very little effort.

DV-CM7.5-TILT: Chip/Coolant Recovery Vacuum, including 17 gallon metal chip basket, 105 gallon liquid collection tank, tilt wheel, handles, casters, pump out system and dump valve
