U.S. PATENT NO. 6863116

CHILLER BIB BAG WITH FRAME

CHILLER BIB®:

The Goodway Chiller Bib captures dirty water and debris during tube cleaning operations, saving time and money on post-job cleanup. The unit consists of a 24" wide x 12" deep reusable aluminum frame, a squeeze diverter that affixes to the tube sheet, and a disposable poly bag that is equipped with a 25' integrated hose to funnel the water and debris to the nearest drain.

It features two oversized soft nylon brushes, which slide into the chiller's tubes, to securely fasten the Chiller Bib to the tube sheet. These brushes also slide in channels on the frame, allowing it to move across the tube sheet

for optimum positioning. A double edge combination of an EPDM gasket with a strip of underlying nylon bristles provides for a snug fit against an irregular tube sheet.

9401-3: Chiller Bib Bag (package of three) **Call for Price**

BIB-KIT-3: Chiller Bib Frame with three Chiller Bib Bags **Call for Price**

BAG-KIT-10: Chiller Bib Bag (package of ten) **Call for Price**

Tube Sheet Refacing Kit

The Goodway Tube Sheet Refacing Kit contains all the materials you need to recondition up to 40 sq ft of tube sheet. After thoroughly cleaning the surface of the tube sheet, simply mix the two part epoxy and apply to the tube sheet with a roller or brush. Once mixed, you will have approximately 45 minutes to apply the epoxy to the tube sheet. The epoxy is a 100% solid coating and will provide superior protection to the tube sheet.

MAKE YOUR TUBE SHEET LIKE NEW AGAIN! LASTS FOR 5 YEARS!*
*LONGEVITY OF RESULTS MAY VARY

TSRK: Tube Sheet Refacing Kit includes 2 liters of base epoxy and 1 liter of hardener to recondition up to a 40 sq ft area, mixing bucket with stick, scraper, steel brush, cup brush (for use with a drill - not included), two mini rollers with frame, 3" bristled brush, detail brush, coverall suit, nitrile gloves and a plastic tarp all in a 5 gallon bucket **Call for Price**
