

# YOUR SMALL MACHINE SHOP JUST GOT BIGGER

## DV-CNC The Perfect Fit

If you're looking for a simple way to make substantial gains in the efficiency of your machine shop, look no further. The CNC Series ChipMasters return filtered coolant back to your machine tool or into a collection drum through an integrated transfer pump.

A second step through a .05" basket or an optional polypropylene filter provides additional filtration down to 300 microns. A tangential intake port allows you to recover not just chips and coolant, but clumps as well.

**DV-CNC:** Chip/Coolant Recovery Vacuum, including filter, tangential intake port, 11 gallon metal chip basket, 27 gallon bonderized steel drum, handles, casters, pump out system and hose ..... **Call for Customization Options and Price**

*Note: Vacuum does not include accessories. Order individual accessories shown on pages 154-159.*

### FEATURES

- Rugged construction
- Coolant level indicator
- Liquid shut-off
- Tangential intake port
- Metal chip basket
- Reusable filter
- 1 1/2" or 2" hoses
- Optional 6 Micron coolant filter available
