

COOLING TOWER CLEANING SOLUTIONS

OPTIMIZE YOUR TOWER
HYGIENE, YOUR HEALTH
IS IMPORTANT

BioSpray® Tower

BioSpray Tower offers powerful sanitizing and disinfecting properties for use across various applications. This includes general surfaces, food contact surfaces, industrial surfaces, and more and has been approved by the EPA for use against SARS-CoV-2, the virus that causes COVID-19.

For HVAC use, including cooling towers, BioSpray Tower is used as a preventive maintenance sanitizer designed for application to all the

areas outside of the bulk water flow. Drift (small water droplets) from a contaminated cooling tower can carry Legionella and other harmful bacteria as far as 2 miles from your facility. That bacteria can then enter the lungs, infecting unsuspecting innocent people.

Unlike bulk water treatment, which only impacts water in contact with surfaces, BioSpray Tower works on hard surfaces to quickly kill 99.9% of Legionella. Apply liberally to exposed surfaces of towers, inside and out. BioSpray Tower will improve the overall health of the cooling so technicians can safely perform preventive maintenance. BioSpray Tower is a non-hazardous, non-regulated preventive maintenance sanitizer.

BIOSPRAY-TOWER-5: 5 Gallon container **Call for Price**

Available in 55 gallon drum

Foam-Clear™

Defoaming solution is a super concentrated defoaming chemical designed to instantly remove foam from industrial applications like descaling, coil cleaning and more.

In certain situations, excessive foam can cause annoyance or possible damage. FOAM-CLEAR reacts instantly, reducing foam and keeping it from forming again.

FOAM-CLEAR-01: **Call for Price**

ScaleBreak®-Gel

Goodway's ScaleBreak®-Gel is a patented, innovative viscous gel formulated for descaling vertical surfaces like cooling tower fill.

When used in conjunction with Goodway's TFC-200 system, ScaleBreak-Gel adheres to vertical surfaces allowing its powerful descaling properties to penetrate and dissolve water formed deposits into a liquid suspension for easy removal.

ScaleBreak-Gel is a completely water soluble product and is perfect for descaling cooling tower fill, tank walls or any other vertical surface.

SCLBRK-GEL-05: ScaleBreak-Gel is an acidic product, formulated to adhere to and descale mineral deposits from cooling tower fill or other vertical surfaces..... **Call for Price**

TowerShine™

TowerShine™ is a biodegradable, expanding foam detergent specifically formulated for use with the TFC-200 TowerWash.

TOWERSHINE™-05:
