AQ-R1500B Rotary Duct Cleaner

Are mold, dust, and pollen creating dangerous environmental conditions in your HVAC system? You should see why so many professional technicians trust the AQ-R1500B Rotary Duct Cleaner for healthy, efficient system operation.

The AQ-R1500B snakes around bends at brush speeds of up to 1,500 rpm to dislodge harmful deposits. It's so easy to operate that only one person with minimal training can thoroughly clean an entire system in very little time.

AQ-R1500B-60: Duct Cleaner, including adjustable speed control, mobile dolly, tool storage box, and belt switch..... **Call for Price**

Note: See page 70 for shafts, brushes and accessories.

Note: A dust mask and safety goggles must be worn when operating this equipment.

FEATURES

- Stainless steel construction
- Quick connect threadless shaft manifold
- Speed control to set shaft rotation to optimum speed for each application
- Interchangeable cleaning tools
- Reversible shaft rotation
- Integrated dolly
- Belt switch activation

**ONE-PERSON
OPERATION**

AQ-V-3M Duct Cleaning Vacuum One-Person Operation

When you need a negative air pressure vacuum to clean ductwork, look no further than the AQ-V-3M high flow duct vacuum. This powerful 3,000-CFM negative air machine gives you the power of a duct truck in a portable format, quickly gobbling up dust, dirt, and debris agitated by duct cleaning.

The AQ-V-3M is designed by people who actually do duct cleaning. At just 22" in diameter, it fits through any doorway and it can break apart easily to get into tight spaces. The 12" wheels don't get caught up on stair treads so it's easy to get up and down stairs. The unique design works just as well upright or laying on its back.

AQ-V-3M: AQ-V-3M High Flow Duct Vacuum Includes: AQ-V-3M duct vacuum, 8" x 8' flex hose, hose to vacuum reducer collar, hose to ductwork flange, and 50' power cord **Call for Price**

Note: A dust mask and safety goggles must be worn when operating this equipment.

FEATURES

- Portable and powerful - Little training required, single person operation
- Oversized wheels - Better mobility
- Two-piece design comes apart easily - Easy cleaning and transportation
- Reusable HEPA filtration - Save on filter costs
- 115v power connection - Convenient

AQ-V-3M

Input Power	Standard: 13.8 amps, 115V, 60 Hz AC
Power Supply Cord	50'
Suction	3200 CFM
Static Pressure	6.9"
Dimensions	60.25" high x 22" wide x 22" deep
Weight	125 lbs net dry
