

# SAVE TIME WITH THIS EFFICIENT CHIP SEPARATOR

10 GALLON CAPACITY BASKET SEPARATES SOLIDS

## W-210CVP & W-315CVP Versatile and Economical

For first-rate performance while separating chips from coolant and then pumping out the liquid, the W-210CVP and W-315CVP ChipMaster® machines are the answer. Available with 210 or 315 CFM, these vacuums collect and separate chips down to 0.05", and also recover clumps due to a specially designed tangential intake port. Additionally, they are equipped with a return pump, allowing the operator to vacuum and pump out the liquid at the same time.

### RECOMMENDED ACCESSORIES

KIT-2015W

### FEATURES

- Two Heavy-duty Motors or Air-powered
- Coolant Level Indicator
- Liquid Shut-off
- 1" Dump Valve
- Tangential Intake Port
- Metal Chip Basket
- Reusable Filter
- 1 1/2" or 2" Hoses
- Return Pump
- Powerful Single Phase Vacuum producer

### ELECTRIC POWERED UNIT

**W-210CVP:** Chip/Coolant Recovery Vacuum, including filter, tangential intake port, 10 gallon metal chip basket, 27 gallon bonderized steel drum, handles, casters and dump valve ..... **Call for Price**

**W-315CVP:** ..... **Call for Price**

### W-210CVP & W-315CVP

Motor Power	2.7 or 4.6 HP
Input Power W-210CVP	17 amps, 115V, 50/60 Hz AC
Input Power w-315CVP	15 Amps, 230V, 50/60 Hz AC
Power Supply Cord	30', 14-3
Air Requirements	N/A
Air Line	N/A
Static Water Lift	90"
Air Displacement W-210CVP	210 CFM
Air Displacement W-315CVP	315 CFM
Filtration	0.05" metal chip basket
Tank	27 gallons bonderized steel
Noise Level	76 dBA
Dimensions	20 1/2" diameter tank x 44" high
Weight	150 lbs
